

EMPOWERING MISSION SUCCESS

Federate Systems Corporation eliminates the risk of digital stagnation by serving as the high-impact bridge between legacy government infrastructure and modern cloud-native environments. With over 15 years of mission-critical experience and a leadership team backed by 40 years of IT expertise, we don't just implement technology - we secure the entire data lifecycle. As an 8(a) STARS III, 8(a) and EDWOSB certified partner, we provide federal agencies with a streamlined, low-risk pathway to AI-driven modernization and Zero Trust security without compromising operational stability.

CORE COMPETENCIES

HOW IS FEDERATE DIFFERENT?

- **Integrated Modernization Ecosystem:** We unify Cloud, Data, and AI/ML into secure, mission-ready architectures, bridging the gap between legacy systems and the modern digital landscape.
- **Deep Institutional Stability:** 15+ years of corporate history and 40+ years of combined leadership expertise offer the maturity of a large integrator with small-business agility.
- **Mission-First Accountability:** We practice a "single point of accountability" model, taking full ownership of contract performance, security compliance, and mission outcomes.
- **Proven Federal Past Performance:** A demonstrated track record of delivering critical IT support and modernization for agencies including DOL, HHS, FAA, CDC, DOJ.
- **Seamless Bid-to-Execution Transition:** Our capture and proposal teams transition directly into program execution, ensuring 100% continuity from bid promises to operational delivery.
- **Streamlined Procurement:** Rapid, low-risk acquisition via 8(a) STARS III, SBA 8(a), and EDWOSB vehicles, alongside comprehensive State (SWaM/DBE/Pennsylvania SB, SDB & COSTARS/MBE/WBE) qualifications.
